

Our Approved Exam Centres

Most organisations are thoroughly encouraged to become an Anglia Approved Open / Closed Exam Centre. This gives their own students as well as external candidates the opportunity to sit the exam in a familiar local environment, thus reducing the students' level of stress.

There is no joining fee for any organisation wishing to become an Anglia Approved Open / Closed Exam Centre.

When are the examinations taken?

The examinations are held once/ twice a year.

Argentina, Paraguay and Uruguay: July/August & November/December

Peru: October

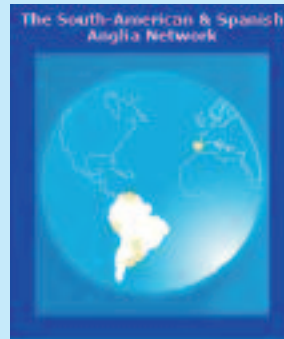

Mainland Spain and Venezuela: May/June & November/December

Other Exam Sessions are available on demand. Contact us for details!!

No matter where the examinations are held, the papers are always dispatched to be marked at CHICHESTER COLLEGE in ENGLAND by respected British consultants.

OPENING THE GATEWAY TO OPPORTUNITY

Examinations in English
as a second / foreign language

What is Anglia Examination Syndicate?

English is the most widely used and recognised language in the world. The ability to communicate in this language is therefore essential as it can provide the gateway to many careers and opportunities. Anglia Examination Syndicate (AES) offers a comprehensive and structured programme of assessing English language competence, which students undertake at their own pace, guided by their teachers.

The Anglia Certificate of English as a Second / Foreign Language is designed to take the student through all the stages necessary to achieve a level of proficiency and can be used to gain access to Universities and Colleges in different countries.

Anglia Examination Syndicate is owned by Chichester College. The college opened in 1964 and is the major centre for a wide range of academic, commercial, scientific, technical, recreational and adult education courses in West Sussex, England.

Implementing our exams is easy

One of the advantages of using Anglia Examination Syndicate is that students need not follow a particular course to take an Anglia Exam.

The programme can be run in addition to other courses of study, as it gives students the opportunity to use the English skills they already have.

The exam format is kept recognisably similar throughout the levels. The tasks candidates are asked to perform are usually found in most ELT textbooks.

Our wide range of exams

Battery 1, CHILDREN'S ORALS, is designed to assess the level of spoken English of children from 4 years of age. Assessment at this level is based upon successful interactions between the candidates and the interlocutors.

Battery 2, GENERAL ENGLISH, tests the four skills, taking an accuracy-based approach to the reading and writing skills while focusing primarily on communication for listening and speaking, for a combination of accuracy and fluency.

Battery 3, BUSINESS ENGLISH, also tests the four skills. Candidates are asked to process and produce information within the context of real-life business-related situations.

Qualifications for Teachers

Exams: C.I.T.E. General Training & C.I.T.E. Young Learners

Distance Learning Programme: Certificate/ Diploma in TESOL

This course is designed for practising English language teachers who cannot afford the time or cost of attending a full-time teacher training programme. It will also be of interest to qualified teachers who would like to continue their professional development through a flexible low-costing training programme.
