The OCNW/Anglia ESOL International Qualifications

OCNW has a long history of developing ESOL Qualifications for the UK market and has recently worked in collaboration with Anglia Examination Syndicate Ltd. to develop a suite of ESOL International Qualifications approved by the QCA to complement and complete the portfolio.

The QCA approved ESOL International Qualifications have been developed to map against the Common European Framework at Levels B1, B2, C1 and C2. The qualifications cover all four skills – Reading, Writing, Speaking and Listening and are recognised by Universities and Employers throughout the UK.

As can be seen from the table below the QCA approved Qualifications are at the top end of a full suite of qualifications aimed at helping students to progress from First Steps in ESOL through to full Internationally recognised Mastery.
