<b>Advanced Business English – Level III</b>	2 hours	1	Listening and reading/writing in the same examination
<b>Business English Plus – Level IV</b>	2 1/2 hours	1	Listening and reading/writing in the same examination

The distinctive feature of Anglia exams is their step-by-step approach to learning language. The syllabus covers the learning of English in a simple set of building blocks upon which the students develop their language skills at a pace which suits them, with examinations to motivate and endorse what they have learnt so far at every level.

All the skills are tested so the students increase their competence at each level in speaking, listening, reading and writing, including essay writing. The lower levels assume that knowledge is more receptive and passive, though not entirely so, and as candidates progress to the higher levels their productive skills and active knowledge are assessed in far greater proportion.

One of the advantages of Anglia certificates is that they give international recognition to the progressive learning done by any student throughout his or her education. Students do not have to wait until they reach a high level to have their English assessed and certificated internationally. In addition, Anglia Proficiency is accepted by many universities as evidence of sufficient competence in English to undertake an English-medium course.
