Forthcoming Exam Sessions within the network

As we approach the end of another academic year and beginning of the next exam session in several countries within the network, we would like to thank all our members in Argentina, Uruguay, Peru, Paraguay, Colombia, Chile, Spain, Brazil and Venezuela for their hard work and continued support during the very busy enrolment period. We are delighted with the large and ever-increasing number of exam entries we have received for November/ December 2011 and are always keen to help every student achieve their maximum potential.

Newly Trained Troupe of Examiners

We would like to welcome our new group of recently trained examiners and invigilators who have just completed all their programme's input sessions, observations of live interviews and handed in their final assignment to be marked within the next few days.

We do wish everyone in the team, already-practising as well as new examiners, the very best of luck for the forthcoming round of exams!

Thank you, Alice!

Now that Alice's visit to Argentina and Paraguay has officially come to an end and that Alice must be back in the UK, we would all really like to express our gratitude towards the Anglia Headquarters in the UK for having made her visit possible.

Without a doubt, Alice's trip has been truly successful and she has made every effort to make the most out of it. We are sure all the participants to all her presentations, workshops and plenary session at the Congress did not only profit immensely academically but also had the opportunity to share their time with a spectacular professional. The local team of examiners, already practising and newly trained, also found her assessor training sessions highly inspiring as well as totally informative and enjoyable, filled with practical ideas to take away with them and apply in the forthcoming exam sessions.

We honestly believe Alice's visit has had a strong and positive impact on everybody in the area and we have already begun to harvest the crops that have been planted since new schools and teachers have agreed to start offering our exams to their students as of next year. Obviously, everybody identified Alice with the college and this also helps us with the marketing of the Study Trips to Chichester.
